GENERAL AVIATION SUBCOMMITTEE

GENERAL AVIATION SUBCOMMITTEE

- Purpose
 - To enhance the nations general aviation airports in the area of safety and utilization through the use of low cost, high performance visual aids for the flying public.

GENERAL AVIATION SUBCOMMITTEE

- Purpose

- To enhance the nations general aviation airports in the area of safety and utilization through the use of low cost, high performance visual aids for the flying public.

- History

- This committee has been in existence for over 30 years. The committee meets twice per year at a general aviation airports throughout the nation to evaluate and test lighting products that can and will be used by the general aviation pilot. The committee has focused on the development, testing and installation of items that have been in service for nearly all of those 30 years. This equipment includes edge and threshold lighting, wind indicators, radio controllers (PCL), base cans for GA lighting, airport beacons, PAPI's, guidance signs, distance to go signs, with installation guidelines and maintenance for all GA lighting and visual aids.

GENERAL AVIATION SUBCOMMITTEE

- Purpose

- To enhance the nations general aviation airports in the area of safety and utilization through the use of low cost, high performance visual aids for the flying public.

- History

- This committee has been in existence for over 30 years. The committee meets twice per year at a general aviation airports throughout the nation to evaluate and test lighting products that can and will be used by the general aviation pilot. The committee has focused on the development, testing and installation of items that have been in service for nearly all of those 30 years. This equipment includes edge and threshold lighting, wind indicators, radio controllers (PCL), base cans for GA lighting, airport beacons, PAPI's, guidance signs, distance to go signs, with installation guidelines and maintenance for all GA lighting and visual aids.

- Goals

- The committee will continue to strive to improve upon GA visual aids through new and improved equipment and to update our manual as needed to offer GA airports the highest degree of safety through good lighting practices.

NEW AT IESALC?

- Come and talk to us at the registration table right now!

NEW AT IESALC?

- Come and talk to us at the registration table right now!
- New this year: networking help on your badge

THE IESALC 5K

- Don't forget, join us tomorrow morning for the IESALC 5k departing from the hotel at 6 am
- You can run, walk, skip, cartwheel, etc.
- We need three volunteers to make sure no one runs to New Mexico.. See Mark *right now* at the registration desk!
